Supervision and Coaching in Changing Europe
World-Cafe

Closing Event World Cafe

At the closing event of the EASC-Congress Bratislava 2016 about 50 participants came together in a World Café and talked about the Workshops and the KeyNotes, the results and their expressions of the congress. The vivid discussions in a warmly intercultural mode using different languages focused on three key questions refering to the congress claim and the keynotes-thesis:

- 1. What is the specific professional identity of the modern coach and/or supervisor?
- 2. Where are you in touch with the European issue in your identity and work as supervisor and / or coach?
- 3. What do you recommend to us all to develop the association EASC?

Moderated by Mathias Hofmann and Alena Kopanyiova the participants documented their dialogues on the tables and answered the last question in the closing Plenum as followed.
