

EASC Working Group „EASC Goes International ” – with a CALL TO ACTION

Purpose: to gain membership in further European countries to become even more European

We have met five times since the 2024 General Assembly.

This working group succeeded in gaining acceptance for MENA membership at the last GA and the cooperation with GIZ regarding training Syrian Supervisors as Mentoring Supervisors is going forward this fall.

We have a **CALL TO ACTION for ALL members** to consider their possible connections with coaches, supervisors and universities in Europe that could be possible connections for the working group and Board to follow up with. If you know someone, we have a questionnaire for them that might help us out and we would like to contact them with further information, if it is advisable. If you have any names or ideas, please contact Patricia Jehle at patricia.jehle@easc-online.eu

Finally, we will be working on a flyer (pdf version to be downloadable in the 4 main EASC languages on the website) that members can use and distribute to potential members and to those who might want to know more about our organization.

If you have other suggestions and ideas, please reach out to Patricia Jehle.
