

Motion to the General Assembly of

Members 19.11.2026

Place, date	Dortmund, September 28, 2026
Applicant's Name	Mechthild Müller
Membership Number	1254
Subject <i>Title of the motion</i>	Establishment of a Limited Liability Company (EASC Ltd.)
Reasons for the motion	Over the past years, EASC has continuously expanded its range of services for members and intends to continue doing so. An important step for the future development of the association is the establishment of EASC Ltd. (EASC GmbH), of which EASC e.V. will be the sole shareholder. The company structure will enable activities that cannot be carried out directly through the association due to its non-profit status. This includes, in particular, participation in Europe-wide tenders for coaching, supervision, and organizational development services. For many individual members, these tenders are difficult to access independently due to their scale or the required number of consultants. Through the company, EASC will be able to acquire such contracts centrally and, once awarded, make them accessible to qualified members. This will create new professional opportunities, additional sources of assignments, and greater visibility for the association at the European level. The company will also open up new opportunities for institutes. Training programmes developed by EASC can in the future be offered in additional countries where the association is not yet represented. This will strengthen EASC's international presence and create further opportunities for institutes to participate in and benefit from these developments. The association will hold 100% of the company's shares. The capital contribution of €25,000, or €12,500 in the initial phase, must be financed from the association's unrestricted reserves. Any profits generated by the company will be distributed exclusively for the benefit of the association. The establishment of the company is planned for the beginning of 2028. During the preparation and start-up phase of approximately two years, a core team composed of members of the Executive Board will develop a concept based on realistic and profit-oriented prospects and present it to the membership in 2027.
Subject of the vote <i>Please formulate here the resolution to be voted on.</i>	The General Assembly may resolve: that the establishment of EASC Ltd. (EASC GmbH) be approved and implemented.
