

Motion to the General Assembly of

Members 19.11.2026

Place, date	Dortmund, 28. September 2026
Applicant's Name	Mechthild Müller
Membership Number	1254
Subject <i>Title of the motion</i>	Possibility of issuing invoices for activities that go beyond regular voluntary service
Reasons for the motion	The upcoming tasks, including the establishment of EASC Ltd., the implementation of the new organizational and operational structure by the Executive Board, and the expansion of CQS responsibilities through the new training pillar of Organizational Development, will require a significant additional investment of time and effort. Both in terms of scope and the nature of the work involved, these activities exceed the usual expectations of voluntary service and can no longer be adequately covered by the annual volunteer allowance (currently €960.00 per year). To provide the necessary flexibility for managing these special responsibilities while ensuring that the financial impact on the association remains predictable and limited, the Executive Board proposes the following arrangement: 1. Executive Board For activities that go beyond regular voluntary service, the Executive Board may invoice services at a rate of €120.00 net per hour. Such invoicing is limited to a maximum of €720.00 net per month, corresponding to a maximum of six billable hours per month. The allocation of these hours among individual Board members shall be determined internally by the Executive Board. 2. CQS For additional services related to its expanded areas of responsibility, CQS may invoice services at a rate of €120.00 net per hour. Such invoicing is limited to a maximum of €240.00 net per month, corresponding to a maximum of two billable hours per month. Important: The amounts specified above constitute binding monthly maximum limits. No other forms of remuneration shall be permitted or provided.
Subject of the vote <i>Please formulate here the resolution to be voted on.</i>	The General Assembly may resolve: to approve the above proposal regarding the possibility of invoicing for such activities.
