Dear members of EASC

With this newsletter we intend to send you news about EASC, the bodies, the Regional Groups and the Institutes on a regular basis and disseminate facts worth knowing from the field of supervision and coaching. We are happy to add information on congresses, books, lectures, dates – please just send it to the Office office@esasc-online.eu or Mathias.Hofmann@esasc-online.eu – ideally marked with the reference NEWS. We will publish the information in our news on the internet www.esasc-online.eu or in the newsletter.

If you don't wish to receive this newsletter, just send a brief memo to office@esasc-online.eu.

Corona

Dear members,

What has happened in the last few days has reached a dimension that we probably could not have imagined weeks ago.

Within a few days our lives are changing due to necessary measures to contain further infections by corona and forces us all to deal with changes and restrictions.

For the coaches and supervisors in the EASC, who work as self-employed, there will be a significant loss of income due to cancelled appointments and events. It is not yet clear in what way the countries of the EU will also support these professional groups in this regard. In Germany, we are working on a petition to the Bundestag with the Roundtable Coaching to support the professional groups of trainers, coaches and supervisors.

At the moment, in mid-March, we do not know how long these regulations will and must be in force and what the overall consequences will be for us as people in Europe.

It will also remain uncertain for some time whether our congress can take place in Barcelona in September.

Our professions as coaches and supervisors will perhaps still face new challenges in, but especially after this crisis, which will significantly change our societies. We will certainly contact you again in the coming weeks with ideas on how we can support you and your clients in finding new ways and ideas.

As Board we wish you health, from the bottom of our hearts, and that you will be able to get through these exceptional weeks of this year well.

Mistakes in our database

Imagine, a prospective customer is looking for Coaches / Supervisors on our website and ... finds out that the data is not correct!

This was done regionally by a research group of a journal "Wirtschaft und Weiterbildung" in the Rhein-Main area in Germany. 11 Coaches in the region had been contacted, 27% of them had incorrect data on the EASC homepage ... So we were the penultimate association on the list ...

Please help us to keep our database up-to-date! Please check the information that is stored about your name within the next 14 days and update it if necessary!
